Global score

65

Your global score consists of the following components:

Idea and context

22

Technology

12

Business model, finance
and corporate

15

Team

16

Comments from Evaluator :

The team sounds and besides the Amsterdam achievements, their product also speaks for them. Their figures sound ambitious both in terms of technology and business development. However, it would be good to learn more on the barriers to access to the market, such as 'Windows' dependance or limitations as well as the sales / business development plan they are thinking of to scale the product.
