Global score

85,5

Your global score consists of the following components:

Idea and context

25

Technology

17,5

Business model, finance
and corporate

16,5

Team

26,5

Comments from Evaluator :

Very interesting project. Technology seem solid and the business model make sense while the team sounds very experienced. We would like to know more about the way you see your go-to-market strategy, your international development strategy, the time it will take to interact with all the VLS providers and to contract with VLS and/or schools/universities ? We would like to know more about the competition.
